

Consent to the processing of personal data for participation in the prize game

The mobility survey is aimed at university employees and civil servants (except HiWis). The goal of the survey is to determine the mobility behavior on the way to work. The results of the evaluations are to be used to develop targeted measures for more sustainable mobility behavior.

Independently of the survey, 5x2 combined tickets for a cable car ride and breakfast on the Schauinsland and 30 water bottles made of bio-based plastic obtained from sugar cane will be raffled off among the participants in the prize draw. The e-mail address stored in the user administration of the Intrexx system will be used for the notification of the prize. For this purpose, your first and last name will be collected and processed when you participate. This data will be stored separately from the completed questionnaires and will not be related or linked to the content of the questionnaires.

Personal data of participants collected in connection with the competition (e-mail addresses, names) will be deleted no later than 14 days after the draw and the delivery of the prizes. This does not apply to the personal data of the winners, which will be kept for ten years by the University's Finance Department to the extent required by law. If necessary, further personal data will be collected from the winners and processed for the purpose of fulfilling the tasks of the Finance Department. If photos of the winners are to be taken and published in connection with the survey, separate consents will be obtained.

We process your personal data in accordance with Art. 6 (1) subpara. 1 lit. a, 7 GDPR exclusively for the purpose of carrying out and confirming the registration as well as for processing the competition. Further information on data processing in accordance with Art. 13 GDPR can be found in this information sheet:
